SECTION 01

Executive Summary

CrypTok is a fully operational, crypto-native social media platform and token ecosystem built on the Solana blockchain. It is designed for content creators, crypto enthusiasts, traders, and communities who demand fair monetization, free expression, and direct ownership of their digital presence.

Unlike legacy platforms that extract up to 50% of creator earnings and restrict content behind opaque algorithms, CrypTok puts creators first. Every feature—from real-time tipping to live streaming to on-chain token rewards—is designed to give users direct, transparent, and immediate value.

The **\$CRYPTOK** utility token powers the entire ecosystem. With **0% transfer tax** for peer-to-peer transactions, frictionless tipping and payments are native to every interaction. A 6% buy/sell tax funds community reflections (3% to holders in SOL) and platform development (3%).

SOL REFLECTIONS

50+PLATFORM
FEATURES

CrypTok is not a concept. It is live at cryptok.me with native iOS and Android apps, hundreds of active users, integrated DeFi wallets, and a fully deployed Solana token—all backed by a registered U.S. LLC and federal trademark.

SECTION 02

The Problem & Our Solution

Legacy Platforms

- ✗ Take 30–50% of creator earnings
- ✗ Ad-driven models prioritize advertisers
- ✗ Opaque algorithms suppress reach
- ✗ Arbitrary bans threaten livelihoods
- ✗ Crypto discussions censored
- ✗ Slow, expensive payout cycles (30+ days)

The CrypTok Solution

- ✓ Only 2% platform commission
- ✓ Zero advertising model—users come first
- ✓ Chronological + engagement-based feeds
- ✓ Free expression, community moderation
- ✓ Crypto-native: wallets, charts, tokens built-in
- ✓ On-chain \$CRYPTOK tips with 0% transfer tax
- ✓ Instant payments via Solana (~400ms finality)

Why Solana?

~400ms

BLOCK TIME

65,000

TPS CAPACITY

\$0.00025

AVG. TRANSACTION FEE

When a user tips a creator on CrypTok, the transaction settles on Solana in under a second for a fraction of a cent. For a social platform where micro-transactions happen constantly, Solana's throughput and cost structure are essential.

SECTION 03

Company Overview & Legal Standing

CrypTok is a legitimate, legally constituted business entity operating under full U.S. regulatory compliance—not an anonymous DeFi project.

Legal Entity	CrypTok LLC
Entity Type	Limited Liability Company (LLC)
Jurisdiction	United States of America
D-U-N-S® Number	Registered with Dun & Bradstreet (DNB)
Trademark	CrypTok™ — Federally registered
Website	https://cryptok.me
Contact	contact@cryptok.me
Support	https://cryptok.me/support
Apps	Apple App Store & Google Play Store

Why This Matters

- ✓ **Registered LLC** — A real business with legal accountability under U.S. law
- ✓ **D-U-N-S® Number** — Verified by Dun & Bradstreet, required for Apple Developer Program and enterprise partnerships
- ✓ **Federal Trademark** — CrypTok™ is legally protected intellectual property
- ✓ **App Store Approved** — Apple and Google have reviewed and approved the CrypTok application
- ✓ **Legal Compliance** — Comprehensive Terms of Service and Privacy Policy covering CCPA, GDPR, DMCA, and child safety standards

✓ **Age Requirement** — 18+ minimum age enforced at registration

A D-U-N-S® number is the global gold standard for business verification. It is required by Apple for App Store distribution, by major payment processors, and by enterprise partners for due diligence.

SECTION 04

Platform Features — Social Core

CrypTok is a full-featured social media platform. Every feature you expect from a modern social network is built-in and operational.

News Feed & Posts

Rich text, photos, videos, audio, GIFs, polls, and link previews. Post to your timeline, groups, or events. 7 reaction types: Like, Love, Haha, Yay, Wow, Sad, Angry.

Stories

24-hour ephemeral content: photo, video, and text stories. 12 gradient backgrounds, 10 font styles. Reactions, comments, view tracking, and DM replies.

Reels / Short-Form Video

TikTok-style vertical short-form video feed. Upload, discover, and share bite-sized content with full engagement features and infinite scroll.

Live Streaming

Professional WebRTC live broadcasts powered by Agora. Cloud recording, viewer management, invite-only streams, and real-time super chat tipping.

Real-Time Messaging

WebSocket-powered instant messaging (Workerman). Private and group chats, media sharing, read receipts, typing indicators, and online status.

Video & Audio Calls

One-on-one and group calls powered by Agora. Call history, missed call detection, and optional paid call monetization for creators.

Groups

Public, closed, and secret groups with admin controls, join approval, monetized subscriptions, and dedicated content feeds.

Events

Online or in-person events with dates, locations, RSVP tracking (Going/Interested/Invited), sponsorship fields, and event content feeds.

Social Graph & Additional Features

- ✓ **Friends** — Up to **10,000 friends** per user
- ✓ **Followers** — One-way following for creators
- ✓ **Gifts** — Virtual gifts for other users
- ✓ **Verification Badges** — Verified accounts
- ✓ **Polls** — In-feed voting with multiple options
- ✓ **Dark & Light Mode** — Full theme switching
- ✓ **Multi-Language** — RTL support included
- ✓ **OAuth Login** — Google, Facebook, Twitter

SECTION 05

Platform Features — Creator

Every feature on CrypTok helps creators earn. Multiple revenue streams with industry-low commissions.

Wallet Tips (Fiat)

Send tips from wallet balance (\$1–\$5,000). Instant delivery. Tips on posts, in chat, and during live streams.

\$CRYPTOK Token Tips (On-Chain)

Tip any amount directly on Solana. **0% transfer tax**. Verified on-chain. Recipient sees USD value at time of tip.

Live Super Chats

5-tier system: Bronze, Silver, Gold, Platinum, Diamond. Each tier has unique colors, minimums, and on-screen display durations.

Paid Subscriptions

Creators set custom pricing and durations (daily to lifetime). Recurring billing via Stripe or PayPal. Only 2% commission.

Paid Posts

Lock any post behind a paywall. Non-subscribers see teaser text; paying users unlock full content. One-time purchase.

Marketplace

Sell digital or physical products. Full shopping cart, checkout, order tracking, and delivery management.

Fundraising

Launch campaigns with goals and progress tracking. Accept community donations with transparent donor lists.

Audio Posts (WaveSurfer)

SoundCloud-style waveform player with purple-to-green gradient, click-to-seek, and lazy loading for

Creator Revenue & Withdrawals

All earnings accumulate in separate balance categories. Creators withdraw via **PayPal**, **bank transfer**, **Skrill**, or convert to wallet balance at any time. Minimum withdrawal thresholds apply.

SECTION 06

Platform Features — DeFi & Blockchain

CrypTok is crypto-native from the ground up. Blockchain is woven into the core of every interaction.

Integrated DeFi Wallets

Connect your existing wallet directly to your CrypTok profile. Non-custodial—your keys, your tokens.

Phantom

Primary Solana wallet

Solflare

MetaMask

EVM chains

Trust Wallet

Multi-chain

Coinbase Wallet

Institutional-grade

Backpack

Power users

OKX Wallet

International

Exodus

Multi-chain desktop

Rainbow

Mobile-first

In-App Token Swaps (Jupiter)

Swap any Solana token within CrypTok, powered by Jupiter—Solana's leading DEX aggregator. Best-price routing across all liquidity pools. 0.1% platform fee supports ecosystem development.

Live Token Charts & Market Data

- ✓ **DexScreener** — Real-time price, volume, liquidity
- ✓ **GeckoTerminal** — OHLCV candlestick data
- ✓ **CoinGecko** — Token metadata & market cap
- ✓ **CoinMarketCap** — Global rankings
- ✓ **RugCheck** — Token safety analysis
- ✓ **GoPlus Labs** — Security scanning
- ✓ **Jupiter** — DEX aggregation
- ✓ **7 Chains** — SOL, ETH, Base, ARB, MATIC, BNB, AVAX

On-Chain Transaction History

Import and view your Solana transaction history directly on CrypTok. Automatic direction detection, counterparty identification, and deduplication.

SECTION 07

\$CRYPTOK Tokenomics

Token Name	CRYPTOK
Ticker	\$CRYPTOK
Blockchain	Solana (SPL Token Standard)
Contract	<code>ESsCdmGyPK9sostFbWV5iM6owxcqsGNfBQaj3xkAkREV</code>
Decimals	9
Max Supply	1.27 Billion (reducing to 1B via burns)
Launch	Fair Launch — no team allotments, no presale
Holders	250+ wallets and growing

Tax Structure

0% TRANSFER TAX

No fees on peer-to-peer \$CRYPTOK transfers within the ecosystem

This is the **killer feature**. When you tip a creator 100 \$CRYPTOK, they receive exactly 100 \$CRYPTOK. No skimming, no hidden fees.

Buy/Sell Tax: 6%

COMPONENT	RATE	DESTINATION	PURPOSE
	3%		

Distribution & Deflationary Model

Fair Launch

- No team allocation or insider tokens
- No presale or private rounds
- All tokens distributed fairly at launch

Deflationary Burns

- Max supply: 1.27B tokens
- Target: 1B tokens post-burns
- Scheduled burns reduce supply over time

SOL reflections (10M+)

SECTION 08

Solana & Consensus Mechanics

Solana is not just fast—it represents a fundamental rethinking of how blockchains achieve consensus.

Proof of History (PoH) + Proof of Stake (PoS)

Solana's breakthrough is **Proof of History**—a cryptographic clock that establishes the passage of time between events before consensus is needed, eliminating the communication overhead that bottlenecks other blockchains.

How It Works

PoH uses a **sequential SHA-256 hash chain**. Each hash takes the previous hash as input, creating a verifiable, ordered sequence. Validators don't need to agree on timestamps—the hash chain IS the timestamp.

- **No waiting for block confirmations** — Transactions ordered as they arrive
- **Parallel processing** — Sealevel runtime processes non-conflicting transactions simultaneously
- **Sub-second finality** — ~400ms block times with immediate usability

Why This Matters for Cryptok

REQUIREMENT	SOLANA	CRYPTOK IMPACT
Micro-tipping	\$0.00025 avg. fee	A \$0.10 tip doesn't cost \$5 in gas
Real-time tips	~400ms block time	Creator sees the tip instantly
High throughput	65,000 TPS	Thousands of tips during live streams
SPL Standard	Native token support	\$CRYPTOK is a first-class Solana citizen
Ecosystem	Phantom, Solflare, etc.	Users connect wallets they already own

CrypTok's Solana Stack

COMPONENT	PROVIDER	PURPOSE
RPC Node	Helius (Premium)	Mainnet transactions & queries
Webhooks	Helius Enhanced	Real-time buy/sell alerts
DEX Routing	Jupiter Aggregator	Best-price swaps across all DEXs
Wallet Adapter	Solana Wallet Standard	Universal support for 8+ wallets
Supply API	Custom endpoint	CoinGecko/CMC supply reporting

SECTION 09

SOL Rewards & Reflection System

Hold \$CRYPTOK. Earn SOL. The reflection system rewards long-term holders with passive income paid directly in Solana's native currency.

COMMUNITY REFLECTIONS

3% of Every Buy & Sell

Paid Directly in SOL to Holders of 10M+ \$CRYPTOK

How It Works

User Buys/Sells \$CRYPTOK on DEX

6% Tax Applied at Smart Contract Level

3% → Converted to SOL → Distributed to Qualifying Holders

3% → Development Wallet

SOL Appears Directly in Your Wallet — No Claiming Required

PARAMETER	VALUE	DETAILS
Minimum Holding	10,000,000 \$CRYPTOK	Must hold 10M+ to qualify
Reward Currency	SOL	Paid in Solana, not \$CRYPTOK
Distribution	Automatic	No staking, no claiming, no lock-ups

Frequency	Per Transaction	Triggers on every qualifying buy/sell
-----------	-----------------	---------------------------------------

Weighting	Pro-Rata	Proportional to holdings
-----------	----------	--------------------------

Why SOL Instead of \$CRYPTOK?

No Sell Pressure

Paying in \$CRYPTOK would incentivize dumping rewards. SOL gives holders liquid value without selling \$CRYPTOK.

Real Value

SOL is a top-10 cryptocurrency. Holders get immediately usable value—pay fees, swap, or buy more \$CRYPTOK.

SECTION 10

Points System & Engagement

CrypTok's points system turns everyday social activity into tangible earnings. Post, comment, react, grow your audience—and get paid for it.

How Points Are Earned

ACTIVITY	POINTS	DESCRIPTION
Create a Post	1.0	Publish any post type
Post View	0.01	Each time someone views your post
Receive a Comment	0.01	Someone comments on your post
Receive a Reaction	0.01	Someone reacts to your content
Make a Comment	0.01	Comment on any post
Gain a Follower	1.0	Someone follows your profile
Refer a New User	1.0	Your referral link signs up a user

Daily Limits

1,000 DAILY — FREE USERS	5,000 DAILY — PRO USERS	5x PRO EARNING CAP
------------------------------------	-----------------------------------	------------------------------

Points-to-Cash Conversion

10,000 Points = \$1.00 USD

Convert to wallet balance or withdraw via PayPal, bank transfer, and more

Anti-Gaming Protections

- ✓ **One-time earning flags** — Each post/comment/reaction earns points only once
 - ✓ **Daily caps** — Hard limits prevent bot farming
 - ✓ **Audit logging** — All earnings tracked with timestamps
-

SECTION 11

Tippling & Live Super Chats

Three tipping methods serve every context—from casual appreciation to high-energy live stream moments.

TYPE	CURRENCY	RANGE	TAX	SPEED
Wallet Tips	USD (Balance)	\$1 – \$5,000	0%	Instant
\$CRYPTOK Tips	\$CRYPTOK	Any amount	0%	~400ms (Solana)
Super Chats	USD (Balance)	Tier-based	2%	Instant

Tip Locations

- ✓ **On Posts** — Tip button on any feed post
- ✓ **In Chat** — Direct tips in private or group conversations
- ✓ **During Live Streams** — Super Chat tiers with on-screen prominence
- ✓ **On Profiles** — Tip from any creator's profile page

Live Stream Super Chat Tiers

TIER	DISPLAY DURATION	VISUAL STYLE
Bronze	Shortest	Bronze highlight
Silver	Short	Silver highlight
Gold	Medium	Gold highlight
Platinum	Long	Platinum highlight
Diamond	Longest	Diamond with animation

On-Chain Tip Verification

User Sends \$CRYPTOK via Connected Wallet

Solana Transaction Signed & Submitted

CrypTok Verifies via Helius RPC (TX Signature, Amount, Wallets)

Replay Attack Prevention (Signature Uniqueness)

Tip Recorded • USD Value Logged • Notification Sent

SECTION 12

Monetization & Payment Methods

CrypTok supports traditional and crypto payment methods, ensuring every user worldwide can participate.

Payment Gateways

GATEWAY	TYPE	RECURRING	USE CASES
Stripe	Credit/Debit, AliPay	Yes	Subscriptions, wallet, packages
PayPal	PayPal, Cards	Yes	Subscriptions, wallet, withdrawals
Coinbase Commerce	BTC, ETH, USDC	No	Wallet top-up, packages
\$CRYPTOK	On-chain SPL Token	No	Tips, packages, ads, paid posts
CrypTok Wallet	Platform Balance	No	All platform transactions

Creator Revenue Streams

REVENUE TYPE	COMMISSION	BALANCE
Subscriptions	2%	Monetization Balance
Paid Posts	2%	Monetization Balance
Marketplace Sales	Configurable	Market Balance
Fundraising	Configurable	Funding Balance
Paid Calls	2%	Monetization Balance

Wallet Tips	0%	Wallet (direct)
\$CRYPTOK Tips	0%	On-chain (direct)
Points Conversion	0%	Wallet or Withdrawal
Affiliate Referrals	0%	Affiliate Balance

Pro Subscription Packages

Enhanced benefits: verification badges, boosted posts, expanded categories, higher point limits (5,000/day), and ad-free browsing. Daily, weekly, monthly, yearly, or lifetime billing.

SECTION 13

Airdrops & Community Campaigns

CrypTok's airdrop system is a gamified engagement engine that rewards the most active community members while attracting new users.

Prize Distribution

Scoring System

ACTIVITY	POINTS	WHY
Recruit a New User	50	Highest value: grows the community
Share Content	25	Extends reach beyond the platform
Comment	15	Creates conversation
React	10	Quick engagement signal
View Content	2	Base participation
Create a Post	1	Content creation baseline

Holder Verification

The 10% Holder Pool is distributed to \$CRYPTOK holders with connected Solana wallets. On-chain balance verified via Helius RPC. Weighted proportionally by holdings (10M+ threshold).

Sponsored Campaigns

Third-party projects can run branded airdrop campaigns on CrypTok:

PACKAGE	DURATION	PRICE
Sprint	7 days	\$250
Standard	14 days	\$500
Full Month	30 days	\$1,000

SECTION 14

Security & Infrastructure

Messaging Security

FEATURE	CRYPTOK (REAL-TIME WEBSOCKET)	STANDARD SOCIAL PLATFORMS
Connection	Persistent encrypted tunnel — always on, instant delivery	Repeated HTTP polling — check, wait, check again
Encryption	WSS + SSL — dual-layer encrypted WebSocket	HTTPS only — standard single-layer
Speed	Sub-100ms message delivery	1–5 second polling delays typical
Battery & Data	Efficient — single open connection, minimal overhead	Heavy — constant reconnection drains battery & data
Crypto Tips	On-chain verified — Solana signature, wallet & amount validated	No native crypto support

Platform Security

CSRF Protection

Per-session cryptographic tokens validate every request, preventing cross-site forgery.

Content Security Policy

CSP headers restrict script sources, preventing XSS attacks.

SSL/TLS Everywhere

All traffic encrypted via Let's Encrypt with proper certificate chain management.

On-Chain Verification

Every \$CRYPTOK tip verified on Solana: signature, wallets, amount, and replay prevention.

Payment Deduplication

Webhook idempotency prevents double-crediting on retries.

Wallet Signature Auth

Cryptographic message signing proves wallet ownership. No linking without private key approval.

Infrastructure

COMPONENT	TECHNOLOGY	PURPOSE
Server	Dell R610, 16-core, 72GB RAM	Dedicated bare-metal
OS	Ubuntu 22.04 LTS	Stability
CDN	DigitalOcean Spaces + Cloudflare	Global content delivery
Database	MariaDB	Row-level locking
WebSockets	Workerman (PHP)	Real-time messaging
Video	FFmpeg	Transcoding & thumbnails
Push	OneSignal	iOS/Android/Web push
Email	ZeptoMail	Transactional email

SECTION 15

Mobile Apps & Telegram

CrypTok is available everywhere—native apps on both platforms plus a Telegram bot for community management.

iOS (App Store)

- ✓ Native iOS app (com.cryptok.app)
- ✓ Full-screen experience with push notifications
- ✓ Automated CI/CD builds via CodeMagic
- ✓ Apple privacy compliance

Android (Google Play)

- ✓ Full-featured Android app
- ✓ Push notification channels
- ✓ Optimized keyboard handling
- ✓ Deep linking support

Telegram Bot (@CrypTokMe_bot)

Price Tracking

/price with real-time \$CRYPTOK data from DexScreener.

Buy/Sell Alerts

On-chain detection via Helius webhooks. Every swap triggers an alert.

Community Raids

/raid launches engagement campaigns on X, Facebook, or custom URLs.

Anti-Spam

Tap-to-verify for new group members prevents bot infiltration.

Easter Eggs

CrypTok includes **130+ hidden easter egg triggers**. Activate the Konami Code (Up Up Down Down Left Right Left Right B A) for confetti showers, heart rain, fire particles, matrix rain, and animated emoji—broadcast to all active users via WebSocket. Because building a platform should be fun.

SECTION 16

Roadmap 2026

Q1 2026 — Foundation CURRENT

Platform, token & wallet launch	COMPLETE
@Username transfers (0% tax)	COMPLETE
iOS & Android apps	COMPLETE
Live streaming (Agora WebRTC)	COMPLETE
DeFi wallets (8 providers)	COMPLETE
On-chain tip verification	COMPLETE
Telegram bot + buy/sell alerts	COMPLETE
Jupiter DEX swaps	COMPLETE
Airdrop engine	COMPLETE
Points reward system	COMPLETE
WaveSurfer audio player	COMPLETE
Bug fixes & beta testing	IN PROGRESS

Q2 2026 — Growth & Security

- Developer/creator reward programs
- 50+ influencer onboarding
- Live streaming capacity upgrade (1,000+)
- Exchange listing applications (2+)
- Two-factor authentication rollout
- CSP enforcement

Q3 2026 — Expansion

- 10+ brand partnerships
- Creator analytics dashboard
- Music integration
- Cross-platform posting
- Independent security audit

Q4 2026 — Evolution

- Cross-chain bridge
- Premium feature expansion (2,500 pro subs)
- Global marketing (5,000 new users/week)
- Major CEX listings
- Developer SDK & API launch

SECTION 17

The Team

Eric Dust — Founder, Lead Developer & Architect

20+ years building systems. CompTIA A+ and MCSE certified cybersecurity specialist with a career spanning U.S. Navy/DoD technical operations, enterprise infrastructure, and cryptocurrency mining at scale (74-GPU mining farm). Founder of DataGuys (2011–present), managing 315+ domains and hosting infrastructure. Former Lead Site Technical Support Specialist for the U.S. Navy, overseeing 50+ flight simulators and AI systems. Full-stack developer across JavaScript, PHP, MySQL, and Linux—Eric designed and built CryptTok from the ground up: the platform, the Solana token, the mobile apps, 50+ integrations spanning 7 blockchains, 8 wallet providers, and dozens of services. 30+ completed projects, 100K+ users served across platforms.

Marshall Smith — Co-Admin & Business Operations

Veteran Business Systems Analyst and Process Improvement specialist. Decades of experience in systems optimization and operational efficiency. Marshall ensures CryptTok operates not just as elegant technology but as a sustainable, scalable business.

Partnerships & Ecosystem

PARTNER TYPE	GOAL	STATUS
Influencers	50+ crypto influencers (Q2)	Planning
Brands	Crypto-native ad partnerships	Planning
Exchanges	CEX listings for liquidity	Planning
Security Auditors	Code & smart contract audits	Planning
Developer SDK	Third-party integrations	Q4 2026

SECTION 18

Competitive Analysis

FEATURE	CRYPTOK	TIKTOK	X (TWITTER)	FACEBOOK
Creator Earnings	100%	~50%	~70%	~45%
Native Token	\$CRYPTOK (Solana)	None	None	None
Transfer Tax	0%	N/A	N/A	N/A
On-Chain Tips	Yes (Solana)	No	No	No
SOL Reflections	3%	No	No	No
Live Streaming	Yes	Yes	Spaces	Yes
Groups & Events	Yes	No	Communities	Yes
Marketplace	Yes	TikTok Shop	No	Marketplace
DeFi Wallets	8 providers	No	No	No
Token Swaps	Jupiter	No	No	No
Charts	Multi-chain	No	No	No
Stories	Yes	No	No	Yes
Points Rewards	Yes	No	No	No
Registered LLC	Yes	Yes	Yes	Yes
Mobile Apps	iOS + Android	iOS + Android	iOS + Android	iOS + Android

CrypTok occupies a unique position: full social platform features (feeds, stories, live, groups, marketplace) combined with DeFi infrastructure (wallets, tokens, swaps, charts, reflections)—all under a registered U.S. LLC. No other platform

offers this combination.

SECTION 19

Risk Assessment & Mitigation

RISK	DESCRIPTION	MITIGATION
Code Vulnerabilities	Platform bugs	CSRF protection, CSP headers, SSL/TLS, input sanitization, prepared SQL. Independent audit planned Q3 2026.
Smart Contract	Token contract errors	On-chain verification with replay prevention, wallet validation, amount checks. Audit planned.
Token Volatility	Price fluctuations	Balanced tokenomics (0% transfer, 6% buy/sell), deflationary burns, real utility driving demand.
Liquidity	Low trading volume	CEX listing pursuit, Jupiter multi-pool routing, reflection incentives for holding.
Regulatory	Evolving crypto laws	Registered LLC, DNB number, trademark, CCPA/GDPR compliance, 18+ age policy.
Scalability	Growth outpaces infra	16-core 2.8GHz, 72GB RAM dedicated server, CDN media delivery, WebSocket architecture.
Key Person	Small team	Git version control, CHANGELOG, documented codebase, planned expansion.

SECTION 20

Conclusion

CrypTok is not a whitepaper promise. It is a live, operational platform with real users, real transactions, and real creator earnings—today.

While others theorize about SocialFi, CrypTok has built it. The platform merges the full social experience—feeds, stories, reels, live streaming, groups, events, marketplace, messaging—with the financial sovereignty of decentralized finance: non-custodial wallets, on-chain tipping, DEX swaps, and passive SOL rewards.

The \$CRYPTOK token has real, immediate utility: tip a creator, buy a product, subscribe to content, earn points, participate in airdrops. The 0% transfer tax makes every micro-interaction frictionless. The 3% SOL reflection rewards every long-term holder.

Backed by a registered U.S. LLC with a federal trademark and D-U-N-S® number, CrypTok operates with the transparency and accountability that the crypto space needs.
